

Saveetha Institute of Medical and Technical Sciences

Vision:

To be and to be recognized for setting the standards of excellence in professional education and high quality scientific research.

Mission:

To Promote Academic Excellence, widen intellectual horizons, inculcate self discipline, and high ideals for the total personality development of individual to convert a novice into a competent professional with excellent theoretical knowledge and unsurpassed practical / clinical skills and to motivate interest in research activities, further education and social service.

PSO CO mapping for MDS Course

Conservative Dentistry and Endodontics (1506)

Program Outcome MDS	
PO1	Sound Theoretical Knowledge and Clinical / Practical Skills
PO2:	Ability to communicate and express concepts with basic pedagogical principles
PO3:	Sound Understanding of Research and ability to take up and complete independent research projects
PO4	Develop an aptitude for interdisciplinary diagnosis, prognosis and treatment planning.
PO5	Ability to apply and integrate basic science theory in their speciality knowledge.
PO6	Acquire sound principles in ethics and empathy

Program Outcome MDS (1506)	
PSO1	Patient assessment, diagnosis, comprehensive treatment planning, prognosis pertaining to conservative and endodontic procedures
PSO2:	Caries prevention, non-invasive and micro and minimally invasive management of initial caries
PSO3:	Knowledge about the various dental materials and armamentarium used in conservative, esthetic and endodontics procedures
PSO4	Conservative management of carious tooth with direct and indirect restorations
PSO5	Management of badly broken tooth with complex restorations
PSO6	Management of deep carious lesions and treatment of non-vital tooth with open apex in regenerative endodontic procedure
PSO7	Dental trauma management

PSO8	Aesthetic management of discoloration and spacing
PSO9	Endodontic management under magnification
PSO10	Management of endodontic mishaps
PSO11	Endodontic surgical procedures
PSO12	Restoration of endodontically treated teeth
PSO13	Acquire knowledge about laser physics, laser-tissue interactions, laser safety and applications of laser in Conservative dentistry and Endodontics
PSO14	Application of digital technology in conservative, aesthetic and endodontic management
PSO15	Interdisciplinary management of complex cases
PSO16	Critical analysis of the existing data to formulate new treatment protocols and innovative ideas that facilitate quality treatment with better prognosis.

Course Details: MDS: 001 [Applied Basic Medical Sciences - ABMS]		
Course Outcome		PO mapping
CO1	Knowledge of applied Anatomy, Physiology, Biochemistry Physiology, Pathology, Microbiology in respective clinical specialties.	PO1,PO5 PSO1
CO2	Knowledge and applications of molecular biology and genetics in disease pathogenesis, diagnosis in clinical practice	PO1,PO5 PSO1
CO3	Knowledge of applied material sciences in developing treatment strategies	PO1,PO5 PSO1
CO4	Knowledge on infection protocol in clinical practice	PO1,PO5 PSO1

Course Outcome		PO mapping
CO1	Should know the basics of clinical epidemiology	PO1,PO3,PO6 PSO16
CO2	Should know the importance of ethics in research	PO1,PO3,PO6 PSO16
CO2	Should have the knowledge of various study designs namely Cohort, Case control, Cross sectional, Clinical trial and Diagnostic studies	PO1,PO3,PO6 PSO16
CO3	Should be able to define the hypothesis and frame the research question in PICO format	PO1,PO3,PO6 PSO16
CO4	Should know the various reporting guidelines	PO1,PO3,PO6 PSO16
CO5	Should be able to critically analyze the topic with emphasis on quality assessment	PO1,PO3,PO6 PSO16
CO6	Understanding of Descriptive and Inferential statistical tests and interpretation.	PO1,PO3,PO6 PSO16
CO7	Knowledge on types of data and to arrive at sample size determination for the research projects to be undertaken using G power analysis.	PO1,PO3,PO6 PSO16
CO8	Knowledge on parametric and non parametric statistical analysis and choosing of appropriate tests based on the outcome variables.	PO1,PO3,PO6 PSO16
CO9	Application of Descriptive and Inferential statistical analysis of data using statistical software SPSS	PO1,PO3,PO6 PSO16
